Milano Bedding® ha voluto, fin dalla sua fondazione nel 1996, creare modelli che coniugassero **design, comfort e tecnologia, per portare al mondo dei divani letto la stessa qualità di quello dei letti e dei divani.**

I prodotti Milano Bedding® puntano sempre all'innovazione e allo sviluppo di soluzioni in grado di aumentare la funzionalità e la praticità dei sistemi di apertura e chiusura, attraverso l'adozione di meccanismi d'avanguardia. La quasi totalità dei prodotti Milano Bedding® non richiede la rimozione di cuscini o schienali durante il movimento; inoltre, numerosi modelli offrono anche la possibilità di contenere un letto pronto con lenzuola e una coperta leggera.

Il brand garantisce la **qualità del sonno** proponendo una continua ricerca sui materassi impiegati di spessori differenti, al passo con i tempi e le tecnologie.

Tutte soluzioni di **elevata qualità**, in grado di soddisfare i criteri di comfort, di seduta e di sonno, senza compromettere estetica e design.

Il brand propone anche una collezione di letti, anch'essi sinonimo di qualità, comfort, design e funzionalità. La produzione di Milano Bedding® avviene nel proprio stabilimento ed è **100% made in Italy.**

Milano Bedding®, a brand founded in 1996, wanted, since its establishment, to create models that combine **design, comfort and technology, to bring to the world of the sofa bed the same quality as that of beds and sofas.**

Milano Bedding® products always point to innovation, to the development of technologies and solutions that increase the functionality and practicality of the system of opening and closing by adopting advanced mechanisms. Almost all Milano Bedding® sofa beds do not require removal of cushions or backrests during movement; moreover, many models also offer the possibility to dress a bed, ready with sheets and a light blanket.

The brand guarantees the **quality of sleep** by offering a continuous research on mattresses; they are of different thicknesses, in step with the times and technology. The company offers all **high-quality solutions**, able to satisfy the basic criteria of sleeping as well as seating comfort, without compromising aesthetics and design.

The brand finally offers a collection of beds, which are also synonymous with quality, comfort, design and functionality.

The production takes place at Milano Bedding® in its factory and is **100% made in Italy.**
